bandhan 
Creating new Standards

TILES | SANITARY | FAUCETS | ALLIED

Bandhan Ceramic specializes in high-quality bath fittings, bathroom accessories & allied products with a primary focus on design, research, and global promotion. Embracing minimalist aesthetic style, embodying the pure essence of design, Bandhan leads fashion trend in bathroom space ensuring product functionality and color application to overall design. Usage of minimal aesthetics reveals the true charm of our products, as simplicity embodies beauty.

www.bandhanceramic.com

DESIGN, QUALITY & TECHNOLOGY

All our products are designed and manufactured in-house thus ensuring strict quality control and maintaining the consistency of its product.

DESIGN-RESEARCH & DEVELOPMENT

We will help you select the right style, which meets the specific needs of your project. The CAD/CAM equipped design studio uses the latest software to carry out designing functions and define technical specifications.

FOUNDRY

The selection of alloys and the experiences of our moulding technicians are essential to achieve the finished product of great quality. Brass inglots of defined compositions.

TOOLING

The combined expertise of our toolmakers and the versatility of our equipment unite this department in the development of prototypes in readiness for product launches.

MACHINING

Machining is done on CNC lathes ensuring accuracy and consistency.

POLISHING

The preparation of products using automatic controlled systems reduces tedium and concentrates the expertise of the employees on the complex aspects.

PLATING

While complying with the most constraining environmental standards, we achieve to finish our products according to the desires of our customers by using the three layer electroplating technique thus increasing longevity and providing superior finish.

OUR TECHNOLOGY

SEAMLESS WELDING TECHNOLOGY

We utilize advanced high frequency welding machines to seamless weld the parts together with silver bars, creating a structure that resembles nature itself, with no visible joints.

PRECISE MACHINING TECHNOLOGY

Our Products undergo precision machining using CNC processing technology to ensure excellent quality. Through dozens of working procedures, including drilling and tapping, we pay meticulous attention to detail, resulting in professional and top-notch craftsmanship.

THICKENED BASE TECHNOLOGY

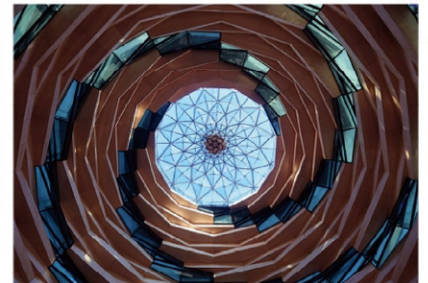

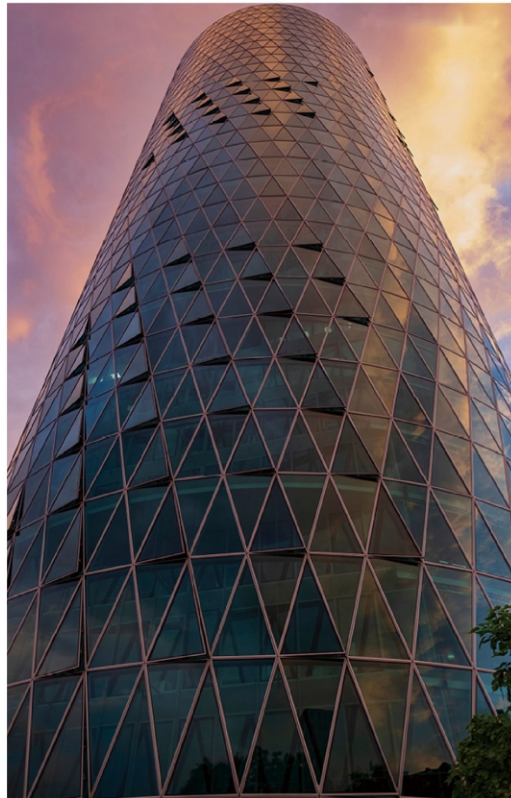

Our base is thickened and securely installed to prevent any risk of falling. It boasts super strong bearing force, preventing extrusion deformation and ensuring long-lasting durability.

CREATE HIGH QUALITY BATHROOM FOR YOU

BLUE RAIN

Creativity plays a significant role as it gives design its rightful existence. It represents the realization of high imagination infusing objects with a visible soul.

At Bandhan, Incorporation of industrial design focusing on crafting products that are accurate, honest and match expectations delivers products which meet the client needs accurately and completely.

INSPIRED

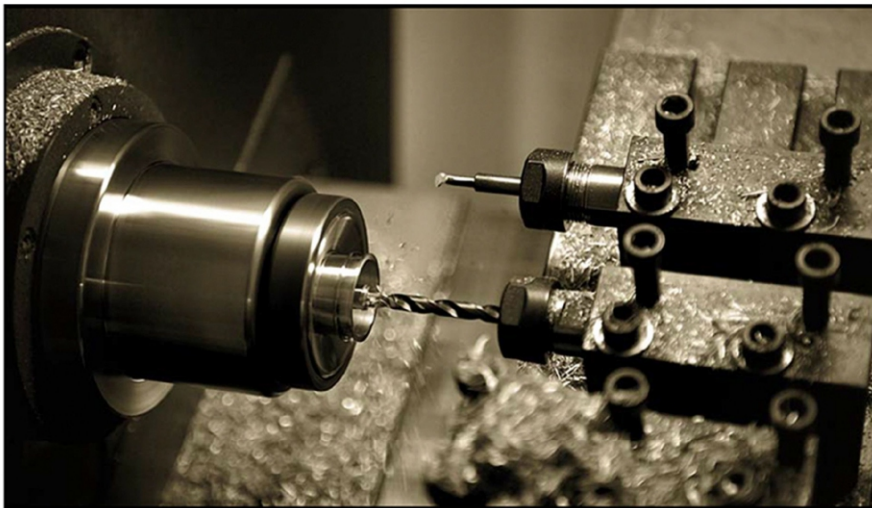

MACHINE PROCESSING

A superior product always looks simple but the complexity lies internally. Simple works always require essentials of basic skills. Technology improves product quality and changes life.

Technology improve product's quality and change life

We cherish our business philosophy of "quality and development." Effective application of modern managerial expertise and focus on quality has made us emerge as a winner in the market as a result of which we have stood as the ultimate choice of distributors as well as end users

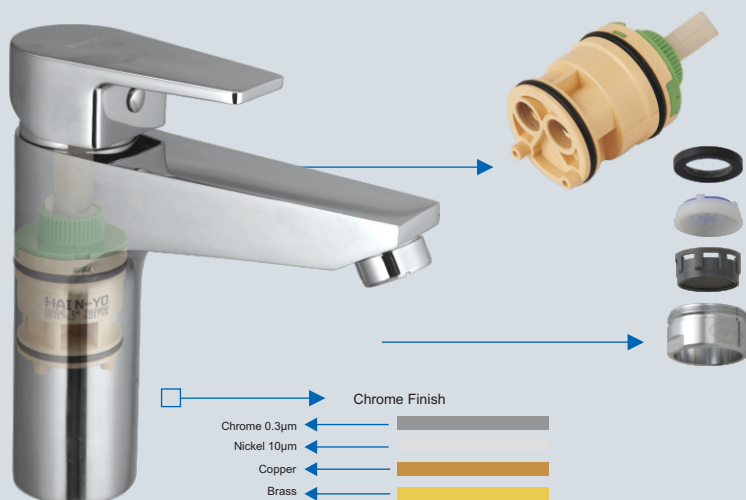

When traditional bathroom fixtures had influenced people's conception globally, our simplification and diversification has led to new designs. material and craftsmanship has evolved from traditional style. Luxury and user friendly features are incorporated. Our products are the best amalgamation of technology, design and functionality.

Our Quality

UNSURPASSED QUALITY

Bandhan brand of faucets believe in delivering performance through uncompromising quality and constant innovation. With the unique quality features and experience in the category brand Bandhan is unsurpassed in the arena of bath fittings.

CERAMIC DISC FOR LONGER LIFE

All quarter turn ranges are fitted with Best Technology Ceramic Disc & made of Alumina known to be hardest material after diamond.

AERATORS

Devices that mix air with water to give a soft and splash-free flow.

- Our integrated structured aerator, provides lime buildup protection
- Integrated anti-clogging diffuser plate of the aerator filters sediments and dust particles
- The maximum allowable TDS level should not exceed 400 mg/L for the better performance of Cartridges, Aerators & Spindles.

CARTRIDGES

The heart of every faucet, the cartridge is responsible for controlling water supply.

- Cartridges are 5 lacs cycle tested to give a longer and trouble free operating life of upto 20 years (considering 60-70 operations per day)
- Wide angle of lever provides ultra comfort and flawless, smooth operation
- Our cartridge spindle is made of delrin instead of plastic, to avoid breakage
- Works smoothly even at high temperatures (85 degrees) and in various pressure conditions (0.5 -5 bar)

CHROME FINISH

Upper shiny protection layer provides a mirror finish to every faucet.

- High plating thickness (Nickel: 10-12 microns and Chrome : 0.3 microns) provides tolerance to extreme climate and water conditions
- 450+ hours of salt spray test ensures our finishes are highly durable and corrosion resistant for a much longer duration.
