bandhan®

Design, Quality & Technology

All our products are designed and manufactured in-house thus ensuring strict quality control and maintaining the consistency of its product.

DESIGN-RESEARCH & DEVELOPMENT

We will help you select the right style, which meets the specific needs of your project. The CAD/CAM equipped design studio uses the latest softwares to carry out designing functions and define technical specifications.

FOUNDRY

The selection of alloys and the experiences of our moulding technicians are essential to achieve the finished product of great quality. So we use Brass ingots of defined compositions in all the casting requirements

TOOLING

The combined expertise of our toolmakers and the versatility of our equipment unite this department in the development of prototypes in readiness for product launches.

MACHINING

Machining is done on CNC lathes ensuring accuracy and consistency.

POLISHING

The preparation of products using automatic controlled systems reduces tedium and concentrates the expertise of the employees on the complex aspects.

PLATING

While complying with the most constraining environmental standards, we achieve to finish our products according to the desires of our customers by using the three layer electroplating technique thus increasing longevity and providing superior finish.

COMFORT SERIES

Comfort series originate from an aptitude for cubic austerity. Simple in shape and Easy to use , it arouses the basis of water bodies , engineered to be applicable,palpable and effectual.

WARRANTY DETAILS

Bandhan products have been manufactured under the highest standards of quality and workmanship. Our faucets are backed by 10 Year Limited warranty against any manufacturing defect. Aerators, spindles and cartridges are backed by 1 Year warranty.

Bandhan Faucets used in normal residential and nonresidential commercial settings are warranted to be free of defects in the material and workmanship for the period of time set, commencing from date of sale from Bandhan authorized partner and distributors.

On or if receiving notice of such defect during the period of warranty, it will, at its option, either repair or replace such defective product or its parts of the products. This warranty does not apply to defect caused by misuse, improper storage, improper installation & handling, or by abnormal water quality in certain areas.

Petty item's like rubber washers, O-rings, other rubber/plastic parts, tiny brass nuts & screws etc. are of fragile nature, thus damages caused to such items due to use are not covered by this warranty. Damages caused due to usage of fluid other than water are also not covered under this warranty.

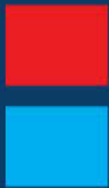

In any case, which is beyond its control and unable to repair or replace the item due to discontinuation or non-availability of stock the purchaser shall be entitled to get a refund or exchange with other model/design of the purchase price.

Bandhan (India) make no other express warranty whether written or oral, and hence is not liable for any direct or indirect loss/damages based on contract or any other legal theory.

This warranty is only effective if proof of purchase (original sales receipt) is provided with all warranty claims and the Warranty Card Document id applicable. Any reference to any other warranty document will not be considered.

Warranty period will start from date of invoice and shall automatically terminate upon the expiry of the warranty period even if the product has not been installed after purchase or has not been in the use for any part or whole of the warranty period for any reason whatsoever.

In the event of any repairs/replacement of any parts of the product, this warranty shall thereafter continue and remain in repairs/ replacement of parts including transit of the product or its parts or any period during which the product has not been used whether under warranty or otherwise shall not be excluded from the warranty period and no extension of the warranty period will be granted.
